PHONOCON 
2024 GUWAHATI

“

Greetings of the day!

We are delighted to host **Phonocon 2024** at Guwahati. We have come a way forward in terms of technology, management and various aspects of laryngeal, airway, swallowing disorders from the last Phonocon held in Guwahati at 2012.

In continuance with the primary aim of the APSI to create awareness in the society about voice disorders and their management including voice care for professional voice users, we want to incorporate our theme **emerging technology meets nature**. Medical science is ever evolving, we too should take a stride forward to stay at par with global forums. Our distinguished international faculties including eminent national figures in laryngology will provide academic enlightenment. Phonocon will provide a interactive platform to learn among faculties and delegates. Conference includes instructional and hands on workshops, video sessions, talks covering all aspects. We welcome all to participate and enjoy the academic feast in our city.
